Veloboxes

Dimensions: W2350 x D2100 x H1500 mm (Open H2100mm)

Designed and manufactured by Grease Monkey, the Velobox offers a secure solution to long-term cycle parking and an effective way to protect bikes from tough weather conditions, vandalism and theft.

Each Velobox securely stores up to 6 bikes whilst fitting 2 units comfortably in a standard parking bay. The units can be adapted with an optional space for a child's buggy.

Secure

- Sold Secure Diamond rating
- Cycle storage for 6 bikes, secured with key and/or lock code
- Second level security available for each individual bike with chains/D locks
- Safe to use in all weather conditions

Design

- 2 units fit into a standard car parking space, catering for 12 bikes
- Modular by design, easy to add additional units
- Gas struts help lift the door, so the unit is accessible for all abilities
- Designed, manufactured and finished in the UK, reducing our carbon footprint
- Made from fully recyclable, responsibly-sourced steel
- Custom cladding, finishing and branding options available

Installation

- Mounted onto existing tarmac or concrete surface enabling fast installation

Price: POA + Delivery + VAT

Velobox Adaptations

Mobility Scooter & Buggy Adaptation

Grease Monkey can adapt the Velobox to house mobility scooters, buggies and trikes within the Velobox by adapting the number of cycle bays to accommodate

- Modular design allows you to add more storage units easily
- Designed, manufactured and finished in the UK reducing our carbon footprint

Installation

- Can include E-bike charging points if connected to an electrical source
- Customisable to incorporate built in pump and repair station

Price: POA + Delivery + VAT

Bike Repair Stations

Our Bike Repair Stations offer cyclists a one-stop-shop for DIY bike maintenance. Ideal for installation on university campuses, outside offices, rail stations, on busy cycling routes or alongside one of our Veloboxes and Shelters.

Available in three different models, each bike repair station offers cyclists a way to service their bikes without buying expensive tools, as well as creating a sense of community for active travellers.

Accessibility

- DIY cycle maintenance available 24/7

Design

- Pump, tools, wheel holder and seat holder incorporated in a compact tower framework
- Galvanised and powder coated to survive all outdoor environments
- Built in Scotland reducing our carbon footprint
- Customisable branding and colours
- Easy to maintain independently

Installation

- Easy to install onto a suitable concrete surface
- Optional servicing plans available to replace lost or damaged tools and cleaning

BRS Gen 1

BRS Gen 1.5
Extra durable pump

BRS Gen 2.0
Extra durable pump
Retractable tools

Bike Repair Station Gen 1

Dimensions: H1500 mm

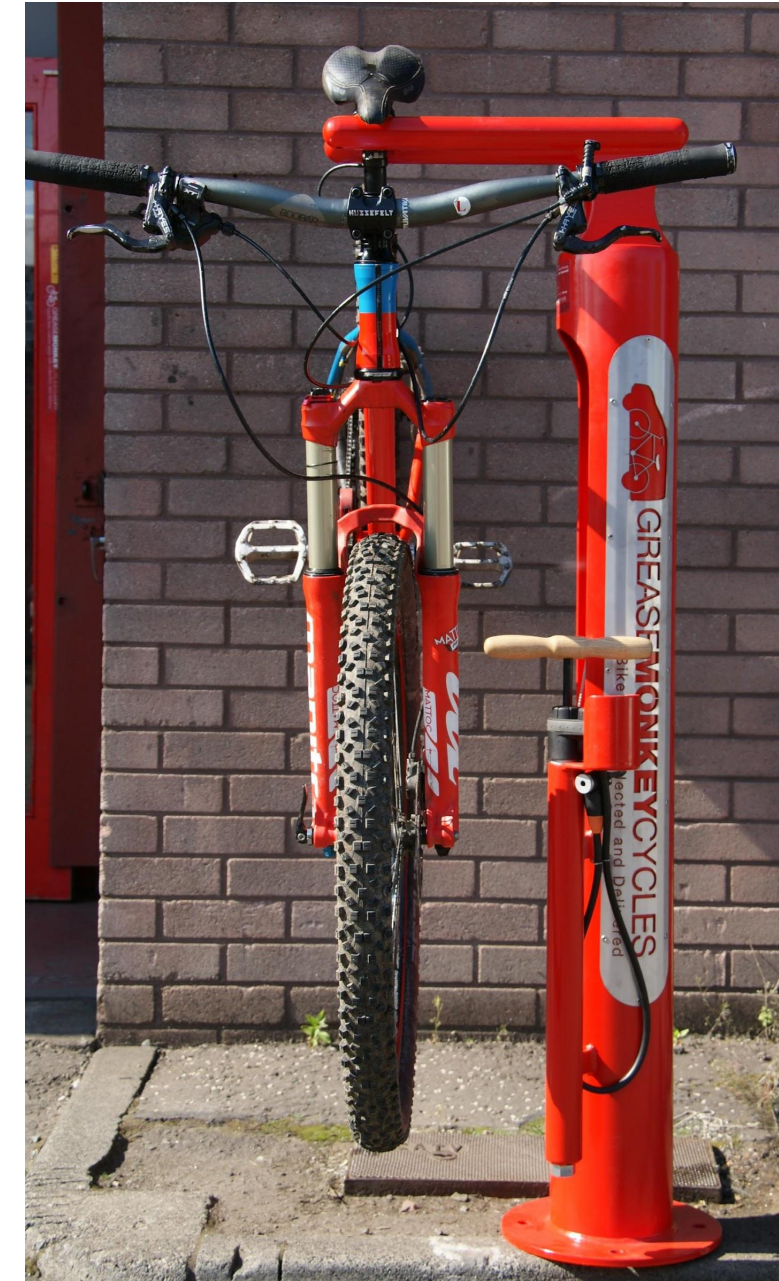

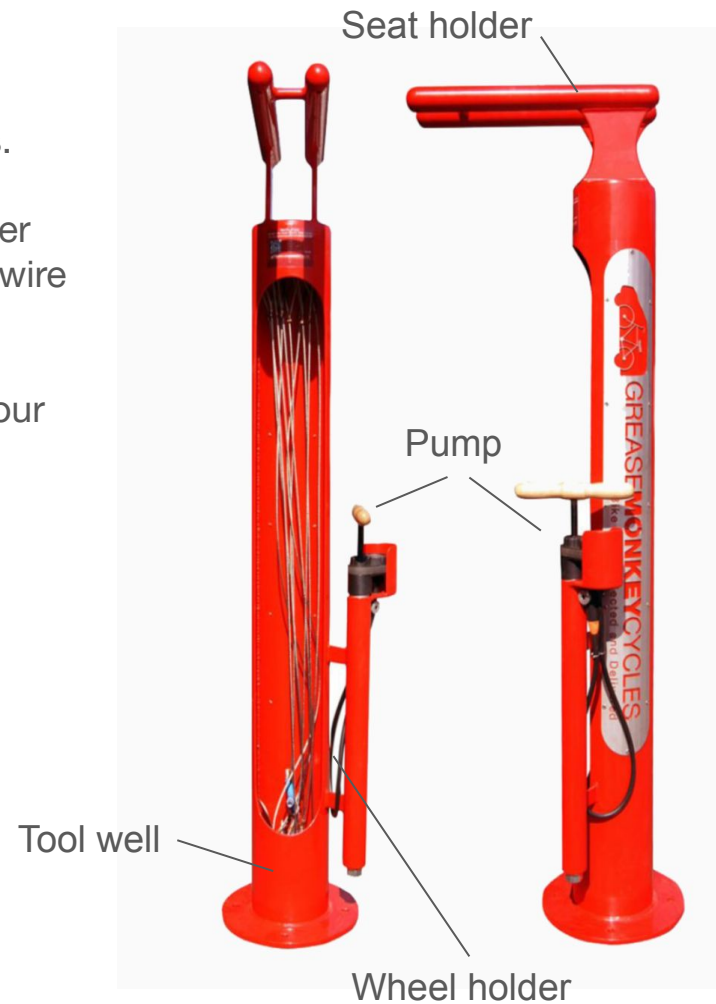

Our first model was built for more sheltered and secure areas.

The stand incorporates a manual pump, tool well, wheel holder and seat holder. Tools are connected using high tensile steel wire to prevent theft.

Our standard colour is Grease Monkey red or customise to your own brand colours.

Easy to install onto a suitable concrete surface.

Optional servicing plans available to replace lost or damaged tools and cleaning.

Price : £1,295.00 + Delivery + VAT

Bike Repair Station Gen 1.5

Dimensions: H1500 mm

This model was made for more exposed outdoor areas with the addition of a stainless steel ultra durable pump.

The stand incorporates a manual pump, tool well, wheel holder and seat holder. Tools are connected using high tensile steel wire to prevent theft.

Our standard colour is Grease Monkey red or customise to your own brand colours.

Easy to install onto a suitable concrete surface.

Optional servicing plans available to replace lost or damaged tools and cleaning.

Price : £1,595.00 + Delivery + VAT

Bike Repair Station Gen 2.0

Dimensions: H1500 mm

This model was made for outdoor areas with the addition of a stainless steel ultra durable pump and retractable tools for better storage.

The stand incorporates a manual pump, tool hub, wheel holder and seat holder. Tools are connected using high tensile steel wire to prevent theft.

Our standard colour is Grease Monkey red or customise to your own brand colours.

Easy to install onto a suitable concrete surface.

Optional servicing plans available to replace lost or damaged tools and cleaning.

Price : £1,895.00 + Delivery + VAT

Bike Racks

Our Sheffield Stands come in a range of configurations from a minimum of four bikes (two hoops). Standalone racks can hold a maximum of 12 bikes.

Accessibility

- Available as a stand-alone unit for public use
- Provides 24/7 cyclist support

Design

- Hoop design will hold a minimum of four bikes
- Galvanised steel prevents rusting in all weather conditions
- Designed and built in the UK to minimise our carbon footprint

Installation

- Easy to install onto a suitable concrete surface
- The perfect buddy for our Bike Repair Stations and outdoor pumps

Price : £PoA + Delivery + VAT

Outdoor Pump

Our outdoor bike pump offers cyclists a handy option to pump up their tyres while on the go. Ideal for installation on University campuses, outside offices, rail stations, on busy cycling routes or alongside one of our Veloboxes and Shelters. These pumps are an ideal way to encourage more people to cycle to your office, campus or in your community.

Accessibility

- Available as a stand-alone unit for public use
- Provides 24/7 cyclist support

Design

- Finished in 316 marine grade stainless steel to withstand all outdoor environments
- Designed and built in the UK to minimise our carbon footprint

Installation

- Easy to install onto a suitable concrete surface
- The perfect buddy for our Bike Repair Stations and bike racks

Price : £895.00 + Delivery + VAT

Drying Cabinet (outside ventilation)

Model H

Doors can be hinged on either the right or left side on both models

Our drying cabinet offers a drying solution for industrial workwear, sports, outdoor and leisure wear. It can also be used for domestic use for large families or as a backup in wet weather.

The electrically heated cabinet is suitable for drying most types of fabrics from heavy outdoor and industrial garments to cotton, silk and woollen items. It is also ideal for drying boots and other footwear.

We supply two versions of hanging configurations:

Model R is supplied with 3 sets of hanging rails which can slide out to assist loading of garments. The middle and lower rails are hinged to allow versatility of hanging space.

Model H is fitted with 6 double hooks fixed on the inside top part of the unit that enables long heavy items to hang freely within the cabinet. They are suitable for both garment hanging loops and coat hangers.

Benefits

- Economic drying for up to 6kg of clothing or 4 sets of cycle/outdoor clothing.
- Simple to use. Easy to clean and maintain.
- High quality air circulation fan integrated into the body ensuring material friendly drying.
- Simple to install - plugs into standard 230V mains.
- Options to adjust drying times and temperature.

Price: £2,107 + Delivery + VAT

Model R

Equivalent to 16m of hanging space

Drying Cabinet (outside ventilation)

Model R

Second and third hanging rails are hinged to allow versatility of hanging arrangements

Specifications

Dimensions: Height

1900mm
(+15mm clearance)

Width

595mm

Depth

605mm
(630mm with door pull)

Weight:

60kg

Exhaust ducting:

100mm

Heating element:

2000W

Electrical supply:

230V

Noise level:

Max 55 dB(A)

Colour:

White

Overheat cut-out protection:

Included as standard

Timer:

Manual

Installation

- Connects to mains power supply via a UK 3 pin plug located either above or to the side of the cabinet
- The unit must be fixed to a solid wall
- Cabinet door hinges can be either left or right opening
- Outside ventilation is recommended via a short ducting hose. If the room is fitted with an existing permanent extraction system, this may not be necessary
- Two spigot adaptors and a short length of hose are supplied

Price: £2,107 + Delivery + VAT

Model H

Six sets of double hooks for use with garment hanging loops or clothes hangers

Both models have three sets of door hanging rails

Drying Cabinet 2.0 (eco condensating)

Condensate tray contained at the bottom of the unit

This drying cabinet offers the same benefits as our other model but is quieter and uses up to 65% less energy. It meets the low-energy requirements for eco-friendly homes and buildings.

The electrically heated cabinet is suitable for drying most types of fabrics from heavy outdoor and industrial garments to cotton, silk and woollen items. It is also ideal for drying boots and other footwear.

The Eco model is supplied with 3 sets of hanging rails; the middle and lower rails are hinged to allow versatility of hanging space. The inside door panel contains two glove hanging rails.

Benefits

- Economic drying for up to 4kg of clothing.
- Simple to use. Easy to clean and maintain.
- High quality air circulation fan integrated into the body ensuring material friendly drying.
- Heat pump technology - no ventilation ducting required.
- Two humidity controlled automatic programs.
- Simple to install - plugs into standard 230V mains.
- Options to adjust drying times and temperature.

Price: £3,900 + Delivery + VAT

Drying Cabinet 2.0 (eco condensating)

The middle and lower sets of hanging rails can be folded backwards to allow longer garments to hang freely from the top rails.

Specifications

Dimensions: Height	1930mm (+15mm clearance)
Width	595mm
Depth	663mm (689mm with door pull)
Weight:	95kg
Heating load:	900W
Electrical supply:	230V
Noise level:	Max 52 dB(A)
Colour:	White (with black fascia and pull handle)
Overheat cut-out protection:	Included as standard
Timer:	Sensor

Installation

- Connects to mains power supply via a UK 3 pin plug located either above or to the side of the cabinet
- The unit must be fixed to a solid wall using two supplied fixing brackets
- Cabinet door hinges can be either left or right opening; right-hand hinged is standard
- Condensate water is collected in a removable catchment tank. Alternatively, the water can be diverted to an adjacent floor drain using the flexible pipe and fittings supplied

Price: £3,900 + Delivery + VAT

Lint filter in the base of the cabinet showing soft bristle cleaning brush.

Removable condensate catchment tray.
